No. 2398/05– TUESDAY, AUGUST 20, 2024

(Published by Authority)

PART IV (B) – LOCAL GOVERNMENT

Local Government Notifications

AYAGAMA PRADESHIYA SHBHA

AS per the function assigned to the Local Councils in Sabaragamuwa Province from “the order of the preparation of plans of roads and narrow lanes maintained by Pradeshiya Sabha in Sabaragamuwa Province and publication of notices showing the list of names” in *Extraordinary Gazette* No. 2316/20 and dated 24th January 2022 published by the Governor of Sabaragamuwa Province which should be read with Section 24 of Pradeshiya Sabha Act, No. 15 of 1987, it is hereby notice to the public that the roads and narrow lanes included in the schedule below should be declared as the roads and narrow lanes owned by the Ayagama Pradeshiya Sabha at its meeting under the decision No. 03 and dated 20.06.2024.

And it is further notice that if it is the opinion of the party who is entitled to the said land, that any road or narrow lane included in the said schedule go through, a case should be filed in the Court before the expiry of a period of three months from the date of this notice to prove the entitlement.

And it is further noticed that every road and narrow lane included in the said Schedule that cases are not assigned before the expiry of the said period of three months, are considered as a road or narrow lane that owned by Ayagama Pradeshiya Sabha.

K. A. T. M. KUDAARACHCHI,
Secretary and Authorized Officer,
Ayagama Pradeshiy Sabha.

Ayagama Pradeshiya Sabha,
Ayagama,
14th of August, 2024.

List of Roads Belonging to Ayagama Pradeshiya Sabha connected to Heraniyawaka Main Road

QUESTION

A patient with a long history of alcohol abuse presents with acute abdominal pain, vomiting, and confusion. Physical examination reveals tachycardia, hyperreflexia, and rigidity in the abdomen. Laboratory studies show elevated serum ammonia levels.

ANSWER

The most likely diagnosis is hepatic encephalopathy. This condition occurs due to liver dysfunction, leading to accumulation of toxins like ammonia in the blood, which affects brain function. The clinical presentation includes altered mental status (confusion), autonomic changes (tachycardia), and neuromuscular abnormalities (hyperreflexia and rigidity). The physical exam finding of rigidity in the abdomen may also suggest underlying liver pathology or complications like ascites.
